Opioid Substitution to Abstinence Residential

The Program

WHOS® OSTAR® (Opioid Substitution to Abstinence Residential) is a residential Therapeutic Community (TC) set in the tranquil and heritage grounds in inner Sydney. Its goal is to assist you to reduce off methadone/other opioids while learning the skills necessary to live drug free.

The Therapeutic Community's aim is to provide a safe and secure environment where you can concentrate on your recovery from alcohol and other drug dependence.

WHOS PROGRAMS

Residents are encouraged to take on increasing levels of responsibility in the running of the OSTAR® Therapeutic Community (TC). As a resident moves through the various stages of the program they receive increased levels of personal freedom and gain greater awareness of the effect their behaviour has on themselves and the community around them.

“The staff at OSTAR® are always here to support me wherever necessary, they have been really supportive through my detox as have my fellow peers. Through the program I have learnt the importance of a strong foundation for recovery. I reached my first goal of withdrawing from methadone and now I intend to move through to the WHOS® Gateway aftercare program.”

OSTAR® RESIDENT

Treatment

90 DAYS DURATION	THERAPEUTIC COMMUNITY: Looking inward and understanding your dependence issue
120 DAYS DURATION	TRANSITION: Moving from the therapeutic community to semi independent living – Pre employment/education
AS REQUIRED	EXIT STAGE: Living independently in the wider community. Residents move from transitional accommodation into the broader community

THINGS TO CONSIDER

- Minimum age is 18 years
- Support from your prescriber to reduce
- No minimum dose
- Dispensing of your Methadone or Buprenorphine – no cost
- Please discuss any detox needs with staff
