WHOS®
helping people help themselves

The Service

WHOS® (We Help Ourselves) Newcastle Day Program provides services for individuals from within the Hunter New England Local Health District. Its aim is to provide a safe and secure space where individuals (including those on opioid substitution treatment) can make positive and productive lifestyle changes to reduce drug related harm.

From a Day Program Client

“Starting the WHOS® Newcastle Day Program assisted me being approved to transfer home with my partner. It has also helped me connect with people and obtain support in my local area.

I have also learnt how to manage and identify different thoughts and feelings and how to cope with them.

I continue to learn more about myself and what my values are from week to week.

I have benefited greatly from the WHOS® Newcastle Day Program and appreciate being given the opportunity to participate.”

Program participant.

Program

THINGS TO CONSIDER

WHOS® provides a comprehensive assessment and referral service as well as the Day Program which consists of group work and individual support provided by experienced drug and alcohol workers.

The Day Program provides groups covering the following topics:

Details
